

OCS Group

Solutions for Your Success

OCS Group is comprised of several respected engineering and consulting companies serving the international oil and gas industry and other industrial markets. From providing project management and commissioning services to safety training to IT consulting and application hosting solutions, our companies offer the experience and expertise required to solve our clients' most complex technical challenges. OCS Group currently includes Offshore Commissioning Solutions (OCS), OCS Training Institute, OCS IT Solutions, and OCS Software & Engineering Solutions.

Offshore Commissioning Solutions (OCS)

OCS is a trusted partner to the offshore industry, offering technical, engineering and consulting services that include:

- Project management and commissioning, on time and on budget
- Audits, inspections and risk assessment based on international standards and best practices
- Failure mode and effects analysis (fMea) for marine and engineering equipment and systems
- Marine and DP support
- Owner representation and pre-sale, pre-purchase inspections
- Hazardous area management

OCS Training Institute

At OCS Training Institute, our goal is to provide the training and skills essential to help companies in a wide array of industries operate safely and efficiently. Our training courses include online courses and onsite courses conducted in our state-of-the-art facilities for realistic hands-on instruction. Our current courses include:

- Hazardous Area Electrical Training
- Hazardous Area Electrical Installation
- ATEX Directives Familiarization
- Hazardous Area Awareness & Inspection
- Basic Hydraulics
- High Voltage Safe Working Procedures
- Hydraulics Troubleshooting

Other oil, gas, chemical and OSHA safety courses also available, please contact us for details.

OCS IT Solutions

For organizations of all sizes, OCS IT Solutions offers a broad range of IT services intended to improve business productivity and reduce risk. Our experienced engineers can function as your IT department or provide supplemental support for your in-house IT team. We can also provide around-the-clock remote support and management services to any location around the globe. Our solutions include:

- Managed application, web and email hosting
- Business continuity services
- Microsoft and Linux consulting
- Custom application development
- VoIP phone systems
- Network security and remediation
- Networking communications (LAN/WAN)
- Web design

OCS Software & Engineering

This group is your source for customized multimedia training animation, videos and software, including safety videos, rig induction or special skills training designed specifically for your business needs and personnel. Our design engineers offer a unique combination of multimedia expertise and knowledge of oil and gas industry operations.
